

ARJUN VG

POWER BI DEVELOPER | BUSINESS INTELLIGENCE | POWER PLATFORM

Thiruvananthapuram, Kerala | +91 98955 64318 | ushasarjun@gmail.com | linkedin.com/in/arjun-vg | Portfolio

PROFESSIONAL SUMMARY

Power BI Developer with 4+ years of experience across business intelligence, MIS reporting, and process automation. Skilled in Power BI, DAX, Power Query, SQL, data modeling, Dataflows, complex ETL workflows, and Paginated Reports. Experienced in enterprise dashboards for finance, sales, HR, and operations, data integration using PostgreSQL, REST APIs and SharePoint, Microsoft Fabric refresh, and Row-Level Security. Capabilities include Power Automate, Power Apps, UiPath, SOP preparation, and project documentation.

CORE SKILLS

Business Intelligence: Power BI Desktop, Power BI Service, Paginated Reports, dashboard development, KPI design, executive and MIS reporting

Data Modeling and ETL: DAX, Power Query (M), SQL, PostgreSQL, star schema, semantic models, complex ETL workflows, Dataflows, time intelligence, data validation, performance optimization

Integration and Governance: REST APIs, SharePoint, Excel, Microsoft Fabric, scheduled refresh, Row-Level Security, workspace and app deployment

Automation: Power Automate, Power Apps, UiPath, workflow automation, approvals, production support

Documentation: Standard Operating Procedures (SOPs), project documentation

PROFESSIONAL EXPERIENCE

Power BI Developer | Applexus Technologies - deputed via ESC Utility Services Pvt. Ltd. Jul 2025 - Present
Thiruvananthapuram, Kerala

- Develop and maintain enterprise Power BI applications for finance, sales, talent acquisition, and operations, translating stakeholder requirements into dashboards and reusable reporting solutions.
- Design star-schema data models with fact and dimension tables, relationships, and DAX measures to support consistent KPIs, time intelligence, and business analysis.
- Create and maintain Power BI Dataflows to transform source data and prepare reusable datasets for reports.
- Build complex ETL workflows in Power Query to combine PostgreSQL, REST API, SharePoint, and Excel data, including transformations and validation; support automated refresh in Microsoft Fabric.
- Build leadership reporting for revenue, sales pipeline, commissions, resource utilization, allocation, bench capacity, contractor capacity, and workforce trends.
- Implement email-based Row-Level Security and role-specific report experiences to protect sensitive finance and workforce information while supporting self-service analysis.
- Integrate Power Apps and Power Automate into reporting workflows, including exception-based delivery-manager reporting and operational data capture.
- Prepare SOPs and project documentation covering reporting procedures, refresh instructions, KPI definitions, data mappings, and support and handover guidance.
- Improve dashboard engagement by 40% and reduce recurring reporting effort by 30% through clearer navigation, automated refresh, and streamlined reporting workflows.

Associate RPA and Digitalization | ESC Utility Services Pvt. Ltd. Apr 2024 - Jul 2025

- Designed, developed, tested, deployed, and supported UiPath automations for business-critical utility processes, including exception monitoring and production issue resolution.
- Created Power BI MIS dashboards for automation volume, bot success rate, exceptions, SLA compliance, project completion, and monthly operational performance.
- Built Power Apps and Power Automate solutions for data collection, approvals, and workflow automation, integrating SharePoint and SAP-supported processes.
- Collaborated with business teams and the German parent organization to identify automation opportunities, validate requirements, and deliver digitalization initiatives.

Process Associate | Ecesis Care Pvt. Ltd.**Jul 2022 - Jul 2023**

- Developed Power BI and Excel reports for U.S. mortgage valuation operations, tracking order volumes, pending assignments, turnaround time, and account status for daily and weekly reviews.
- Validated operational data and maintained Power BI reports to support vendor coordination, data-quality checks, and timely order completion.

Process Associate | Ecesis Care Pvt. Ltd.**Jan 2021 - Nov 2021**

- Supported Power BI and Excel reporting for mortgage account operations while processing orders, maintaining account updates, and resolving client queries.

SELECTED PROJECTS

- Revenue Radar and Commission Analytics: Created USD and GBP views for revenue at risk, pipeline variance, booked versus forecast revenue, and quarterly commission tracking.
- Utilization and Capacity Analytics: Delivered current-month and YTD views of billed, unbilled, bench, internal, shore, location, contractor, and employee capacity metrics.
- Reporting Automation: Designed monthly exception reporting by delivery manager for project-level actual revenue, forecast revenue, variance, and variance percentage.

EDUCATION**Bachelor of Engineering in Mechanical Engineering** | Narayanaguru College of Engineering | 2015 - 2019**CERTIFICATIONS AND LEARNING**

Microsoft Learn: Design and Manage Analytics Solutions Using Power BI | UiPath Academy: RPA Developer Foundation, Automation Business Analyst Foundation, Document Understanding | Microsoft Copilot Studio training | PL-300 preparation in progress
